Some definitions so we're all on the same page

Network Discounts: With Blue Cross and Blue Shield Healthcare Plan of Georgia, you have access to some of the largest provider networks in the state. These network (or participating) providers have agreed to accept lower costs for their covered services to our members – similar to volume discounts. These negotiated costs help reduce the overall cost of covered medical services, including your share of those costs.

This is true whether you are paying the entire cost for covered services (such as while you are meeting your deductible), or whether we are sharing the cost. With over 15,000 providers and nearly 150 hospitals, chances are your provider already participates. Just visit a network provider to take advantage of the savings.

You can always choose to receive services outside the network, but your share of the cost will be greater.

Cost-Sharing: The costs of medical care today can be staggering. Health care coverage from Blue Cross and Blue Shield Healthcare Plan of Georgia can help protect you against these high costs. With most health care coverage, you pay a monthly premium, then you share some of the cost of covered medical care with the company that provides your health care coverage. The level of cost-sharing you choose directly impacts your premium amount. The more you are willing to share in the cost, the lower your premium. You can choose your level of protection and the level of cost-sharing that works best for your health care needs and budget.

Deductible is the amount you have to pay each calendar year for covered services before your health care plan starts paying. For some services, the plan will even begin to pay before the deductible is met. Usually, the higher a plan's deductible, the lower the premium. In some cases, you may also have a separate deductible for certain services such as prescription drugs or non-network services.

Coinsurance is the percentage of the cost of covered services that you will be responsible for, after your annual deductible is met. With some plans, you have a choice of coinsurance levels. Much like your deductible, selecting a higher coinsurance typically lowers your monthly premium because it increases your share of the cost.

Co payment is a specific dollar amount you have to pay for certain covered services.

Out-Of-Pocket Maximum is the most that you would pay in a calendar year for deductible and coinsurance for network covered services. Once you reach this maximum, the plan pays at 100% for most network services for the rest of the calendar year. There is a separate out-of-pocket maximum for non-network services.

Prescription Drugs are medications that must be authorized for use by your doctor. Blue Cross and Blue Shield Healthcare Plan of Georgia offers varying levels of prescription drug coverage. Depending on the plan, you may have coverage for generic drugs or generic and brand name drugs.

Generic Drugs are prescription drugs that typically have been in use for some time and can be manufactured and distributed by numerous companies, so their cost is usually much lower. Generic drugs must, by law, contain the same active ingredients as their brand name equivalent and have the same clinical benefit.

Brand Name Drugs are prescription drugs that are manufactured and marketed under a registered name. They are usually patented and may be exclusively offered by certain manufacturers.

Formulary is a list of prescription drugs our health care plans cover. They may include generic, preferred brand name and specialty drugs that have been rigorously reviewed and selected by a committee of practicing doctors and clinical pharmacists for their quality and effectiveness. We've negotiated lower prices on these formulary drugs, so you'll save when your doctor prescribes medication from our formularies. There can be different formularies for different health care plans. The formulary for this plan can be found at www.bcbsga.com/health-insurance/nsecurepdf/pharmacy_BCBSGA_Natl_DL.

Health Savings Account (HSA) is a special bank account that can be set up by a member enrolled in a qualified HSA-compatible high deductible health plan if they choose. Contributions to this account can be made with certain tax advantages and funds from the account can be used for qualified health care expenses. See the insert from the preferred bank we are associated with for more details and consult your tax advisor.

ForwardFocus HSA POS

Is this the right plan for you?

ForwardFocus HSA Blue Open Access POS can be paired with a Health Savings Account (HSA). All benefits, except network preventive care, are covered after your deductible.

ForwardFocus HSA POS Plan Highlights

This plan offers traditional health care coverage that can be paired with a Health Savings Account (HSA) for more flexibility and potential tax advantages.

Features:

- POS health plan coverage with a large array of benefits after you pay your deductible.
- Simple policy-level deductibles mean any covered member can contribute to all or a part of your deductible.
- Your health plan is compatible with a Health Savings Account that is yours to fund and keep. Use the HSA for qualified medical expenses or as a savings vehicle, all with some possible tax advantages, just consult your tax advisor.
- Preventive care benefits that help you focus on staying healthy.

You should know:

- Maternity benefits are available with deductible options of \$2,500 and higher for an additional cost.
- This ForwardFocus HSA POS plan accesses our Blue Open Access POS network of providers. To check on which providers participate in this network, go to bcbsga.com and select "Find a Doctor".

Prescription Drug Coverage

Today, there is a prescription medication for just about everything and the costs can put a real strain on your health care budget.

With ForwardFocus HSA POS, prescription drugs are covered with a coinsurance once you meet your policy deductible. But even while you are meeting your deductible, you benefit from lower negotiated rates on prescription drugs at network pharmacies across the country.

You will receive the highest level of benefits by asking your physician to prescribe a generic drug whenever possible. If you choose to purchase a brand name drug when a generic drug is available, you will be responsible for the difference in the cost between brand and generic, plus your coinsurance.

And since you decide how to spend it, your health account dollars can be used to pay for prescription drugs — while you are meeting your deductible, or for those drugs not covered.

See your Benefit Guide for more details.

How to Customize your ForwardFocus HSA POS Plan

Choose your deductible: ForwardFocus HSA POS deductibles range from \$1,750 to \$5,500 for individuals or \$3,500 to \$11,000 for families. Since the deductible is an amount you are responsible for each calendar year, you can usually lower your premium by choosing a higher deductible. Just choose the plan that has the deductible and premium combination that works best for you.

ForwardFocus HSA POS offers the ease of a policy-level deductible. Any covered member can contribute to some or all of the policy deductible, which makes it easy for you and your whole family.

Other Optional Coverage: Includes maternity coverage for deductible plans of \$2,500 and higher, dental and life insurance coverage. See the Benefit Guide and information regarding dental and life in the back of this brochure.

Utilization Management and Case Management

Our Utilization Management (UM) services offer a structured program that monitors and evaluates member care and services. The UM clinical team, which is made up of health care professionals who hold active professional licenses and certificates, perform the prior authorization, concurrent and retrospective review processes explained below. The UM team follows criteria to assist in decisions regarding requests for health care and other covered benefits, and complies with specific timeframes to ensure requests are handled in a timely manner. Our case management services help you to better understand and manage your health conditions.

Prospective Review/Pre-Admission Review

Prospective review (also known as pre-service or pre-admission review) is the process of reviewing a request for a medical procedure or service before it takes place. The review occurs to ensure that:

1) the procedure is medically necessary and 2) the procedure meets your health care plan's specific guidelines prior to being performed.

Requests for prospective review may include but are not limited to:

- inpatient hospitalizations
- outpatient procedures
- diagnostic procedures
- therapy services
- durable medical equipment

Prospective review is required for all elective inpatient admissions and certain outpatient services. The review process evaluates medical necessity and the best level of care and assigns expected length of stay if needed.

Concurrent Review

Concurrent review is an ongoing evaluation of a member's hospital stay, as well as ongoing extensions of services that may be needed (such as acute care facilities, skilled nursing facilities, acute rehabilitation facilities, and home health care services). The review includes physicians, member-assigned health care professionals (or member authorized representative) and takes place by telephone, electronically and/or onsite.

Concurrent review uses pre-set decision criteria in order to approve medical care (deemed to be medically necessary) and assign the right level of care for continued medical treatment. Review decisions are based on the medical information obtained at the time of the review. Concurrent review also helps to coordinate care with behavioral health programs.

Retrospective Review

The retrospective review process consists of obtaining information to determine medical necessity as it relates to services provided without approval or notice ahead of time (e.g. without pre-service notification). Relevant clinical information is required for the retrospective review process. Review decisions are based only on the medical information the doctor or other provider had at the time the member received medical care.

Case Management

Case managers are licensed healthcare professionals who work with you to help you understand your benefits and support your health care needs. The case manager works with you and your doctor to help you better understand and manage your health conditions.

Also not covered is dental care and treatment and oral surgery unless the optional dental rider is purchased. Dental care is also subject to specific exclusions and limitations on services, such as two oral or periodontal exams per member per year. A full disclosure of all benefits, exclusions and limitations is included in the Contract for this coverage or any optional coverage amendments. Please review these carefully upon enrollment.

This is not your policy and is intended as a brief summary of benefits and services. If there is any difference between this brochure and the policy Contract booklet, the provisions of the Contract booklet shall prevail.

This summary of benefits complies with federal and state requirements, including applicable provisions of the recently enacted federal health care reform laws. As we receive additional guidance and clarification on the new health care reform laws from the U.S. Department of Health and Human Services, Department of Labor and Internal Revenue Service, we may be required to make additional changes to this summary of benefits.
